Dear members,

Last year I narrowly missed out being elected as your Greens MP to the NSW Upper House. Now I'm asking for your support again.

I am known for my hard work and policy depth. I served as a policy advisor to four NSW Greens MPs, working on a diverse range of issues including education, voluntary euthanasia, donations reform, renewable energy, mining, fair trading, and agriculture.

As a campaigner and strategist I have proven to be an effective communicator and community organiser, winning campaigns to keep fossil fuels in the ground and protect the marine environment.

If elected, I will use the forum and power of the parliament to amplify community campaigns.

Whether it's climate change or social justice, it's vital the Greens do more than just protest the bad decisions of the old parties.

We must grow our vote and influence to ensure a safe climate, and deliver a fair, sustainable and prosperous future for all.

Justin Field

*Justin was preselected third on the ticket with Dr John Kaye & Dr Mehreen Faruqi at the 2015 state election*

## BUILDING THE 'LOCK THE GATE' MOVEMENT

Working with Drew Hutton, Justin helped establish the Lock the Gate Alliance and formulate their highly successful campaign strategy.

*Justin travelled to the U.S. with Lock the Gate President, Drew Hutton to meet, learn and exchange ideas with anti-fracking activists*
